

WHAT IS STIMEY...

STIMEY is an educational platform that

TAKE PART IN STIMEY

STIMEY is an education platform that combines Science, Technology, Innovation, Mathematics, and Engineering for the Youth. It aims to attract the European youth to STEM education and careers with social media components, robotic artefacts, radio, serious gaming, entrepreneurial tools, and more!

Students, educators, parents and companies come together to complete a circle in which STEM becomes part of the daily life of youths. It is currently being designed and developed by partners from universities all over Europe, and we invite you to take part in its development with your opinions, expertise, feedback, and suggestions, and explore further opportunities for collaboration!

To learn how you can take part and help shape the future of education with STIMEY, visit our website or email us.

A PEDAGOGICAL APPROACH TO SOCIAL MEDIA INTEGRATION IN E-LEARNING AT AICT 2017

June 25 – 29, 2017:

In the beautiful city of Venice, Italy, our social media expert, Manal Assaad, will be presenting a research paper titled **“Integrating Social Media Concepts into a Pedagogical Approach for a Technology-enhanced STEM Learning Environment”** at the 13th Advanced International Conference on Telecommunications. It’s a chance to get a better understanding of the key current social media concepts and how they support pedagogical learning approaches.

**UPCOMING INFORMATION SEMINAR AT
HSEL, UCA, PSU, UOM Y JYU**

October 19 – 20, 2017:

Our STIMEY team member, Manal Assaad, will be in Paris, France at the 19th International Conference on Advanced Learning Technologies to present our first (forthcoming) published paper, titled “**Attracting The European Youths to STEM Education and Careers - A Pedagogical Approach to a Hybrid Learning Environment**”. Meet us there for a detailed presentation on STIMEY, and a chat.

Hope to see you there!
